## ARMY PLANS FIXED PRICE CONTRACTS

### Cost Plus System to Be Used Only in Exceptional Cases.

Special Dispatch to The Sun.  
WASHINGTON, Aug. 4.—It has been decided by the Superior Board of Review of the General Staff that wherever possible fixed price contracts shall be used in buying supplies for the War Department. In exceptional cases where it is clearly to the advantage of the Government a cost plus contract will be used, but a cost plus percentage contract is to be avoided.

Hereafter no cost plus contract will be made unless it has first been approved by the board of review of the War Department. As wool is one of the supplies needed. These boards, now established in every bureau having to do with obtaining supplies, are made up of officers and civilians who have not taken part in the preliminary arrangements of the proposed contract.

As a further check to insure absolute fairness to the Government it has been decided that no cost plus contract shall be approved by a board of review of a supply bureau unless the making of a supply contract under the particular circumstances involved shall first have been approved by the Superior Board of Review.

This board is composed of the Director of Purchases and Supplies, who is the chairman, the Surveyor of Contracts, and the chairman of the chief procurement officers of the various supply bureaus. The Superior Board of Review operates on policies formulated by the General Staff through the purchase, storage and traffic division.

### July Trade Good, Chicago Report.

Special Dispatch to The Sun.  
CHICAGO, Aug. 4.—In its weekly review of trade the John V. Farwell Company reports:

"Volume of wholesale dry goods business for the month of July was largely in excess of the corresponding month last year. Collections maintained a very high average. Buyers were in the market in larger numbers.

"Large purchases by the Government are continually reducing goods available for civilian use. As wool is being released for civilian manufacture a shortage of wool dress goods was apparent.

"The attention of trade in general is more upon the allotment of deliveries than upon what prices will prevail in many lines of merchandise.

"Silks will probably be 20 to 25 per cent higher next spring and fall. At least 25 to 35 per cent higher.

"Mills announce another advance in price of comfortable. Merchants in the market are buying French waists, skirts and ready to wear lines.
